

## **Meeting of IAA Committee 20090110**

Present: Dave, Steve

Meeting begins at 15:00

Topics:

Site Standards: Drafted a new set of site standards, which are very similar to the old ones, except clearer and more like a checklist.

Will meet as an entire committee next week to ratify.

In the meantime, we welcome suggestions from any sites.

Suggestion: "Official Docs" section on website with guidelines, codes of conduct, procedures, other important things.

These are a bit all over the place at the moment.

Affiliating with international bodies.

We have drafted guidelines for this.

Basic synopsis is that they need to have a similar Ethos.

Will ratify and publish soon.

Discussed how to act on reports of illegal activity.

We need to act on these reports at face value, and in a non-accusatory fashion.

There Needs To Be Evidence. Reporter also needs to be willing to swear an affidavit.

IAA has industry/Garda contacts and has an interest in investigating these cases.

Club Affiliation standards

We hope to do these soon, in consultation with interested clubs that either are affiliates or have contacted us.

Signup days

Affiliates have asked about signup days, where we have a desk and can sign people up on the spot.

This seems like a good idea. If we get enough notice and are free we can haul card printers/equipment along.

Meeting concluded at 17:00
